Finance Summer Analyst

FINANCE DIVISION OVERVIEW

The Finance division manages the firm's liquidity, capital and risk to provide the overall financial control and reporting of the firm. By tracking and analyzing the capital flows, Finance is the principal adviser to senior management on essential areas such as controlling the firm's global risk exposure and the profitability and structure of the firm's various businesses. While each department within Finance has its own areas of responsibility, as a team member many of your daily activities will be the same across all of them.

FINANCE SUMMER ANALYST PROGRAM

Summer Analysts join a ten-week comprehensive program, where you are given the opportunity to learn critical business skills while gaining fundamental experience in a specific Finance Business Unit. The Summer Analyst Program also includes various Learning Series, networking and social events, and a formal review process. You will join a team-based, collegial environment where people take the time to properly train and mentor you. Our training program is an important part of our culture which will help to maximize your professional development.

FUNCTIONAL AREAS

Summer Analysts joining **Finance and Accounting** teams play a key role in measuring the profitability and accurately reporting the firm's complex products, services and businesses globally. These professionals work to ensure business practices are in compliance with growing financial and regulatory standards worldwide. Teams are responsible for P&L reporting and analysis, capital analysis and financial reporting. Financial and accounting teams are market focused, have an analytical mindset, and possess strong communication skills. Professionals in this function have diverse academic backgrounds, but a concentration in Finance, Accounting, Business, STEM, is preferred.

Summer analysts joining **Risk** teams will partner with business lines to manage and capitalize the Firm against market, credit, liquidity and operational risks. Candidates participating in the program will develop a deep intuition for an industry leading risk management framework that effectively balances risk and reward in an increasingly dynamic and complex market environment. Risk teams are comprised of ambitious professionals from a diverse set of academic backgrounds and experiences who share an analytical curiosity, an aptitude to challenge, and an unwavering commitment to excellence a concentration in Liberal Arts, Business, and STEM is preferred.

Summer Analysts joining **Treasury** will play a key role in firmwide strategic and analytical projects related to our management of funding, liquidity, and capital. The various teams within Treasury work together in sourcing cash to support the divisions across the firm, ensuring the maintenance of sufficient levels of cash, and determining the appropriate amount of equity capital to hold in order to satisfy regulatory requirements. Professionals in Treasury are responsible for providing risk oversight to the areas of the firm responsible for making decisions affecting the firm's management of liquidity. Professionals in this function have diverse academic backgrounds, but a concentration in Liberal Arts, Business, and STEM is preferred.
