2018 Risk Summer Analyst Opportunities

ABOUT GOLDMAN SACHS

Goldman Sachs is global investment banking, securities and investment management firm. We provide a wide range of services to a substantial and diversified client base that includes corporations, institutional investors, governments, non-profit organizations and high net worth individuals. Our headquarters are in New York and we maintain significant offices in London, Bangalore, Mumbai, Tokyo, Hong Kong and other financial centers around the world.

ABOUT OUR RISK ROLES

The Risk Division aims to effectively identify, monitor, evaluate, and manage the firm's financial and operational risks – including reputational risk – in support of the firm's strategic plan. Operating in a fast and changing environment and utilizing the best in class risk framework, Risk teams are analytically curious, have an aptitude to challenge, and an unwavering commitment to excellence. Our activities are organized into seven risk disciplines, which together provide the firm with a comprehensive view of its risks and the most effective ways to measure and manage them.

JOB RESPONSIBILITIES

Summer Analysts join a ten-week comprehensive program, where you are given the opportunity to learn critical business skills while gaining fundamental experience while aligned to a specific risk area. The Summer Analyst Program also includes various Learning Series, networking and social events, and a formal review process. You will join a team-based, collegial environment where people take the time to properly train and mentor you. Our training program is an important part of our culture which will help to maximize your professional development.

Additional responsibilities below:

- Work in an exciting fast-paced environment and solve challenging problems
- Participate in collaborative, team-oriented projects and responsibilities
- Engage in work that exercises your creativity and initiative
- Execute day-to-day risk management activities

BASIC QUALIFICATIONS

The Risk Division seeks a wide variety of skillsets including but not limited to:

- Interest and enthusiasm in the Risk Division
- Analytical problem solving skills
- Experience in data modelling, appreciated but not required
- Experience analyzing financial statements
- Intellectual curiosity and self-motivation
- Integrity and sound judgement

PREFERRED QUALIFICATIONS

The Risk Division looks for candidates who have an unwavering commitment to excellence, thrive in fast paced environments, and are able to work well in teams. We look for candidates with outstanding academic achievements in academic and extracurricular activities.
