

OPORTUNIDAD DE EMPLEO/INTERNADO/ COOP

Company Name or LOGO:

Texas Instruments

Job Title/Internship/COOP: Finance and Operations FT & Internship

Job Description or Minimum Requirements /Internship/COOP:

As a global semiconductor company operating in 35 countries, Texas Instruments (TI) is first and foremost a reflection of its people. From the Tler who unveiled the first working integrated circuit in 1958 to the more than 30,000 Tlers around the world today who design, manufacture and sell analog and embedded processing chips, we are problem-solvers collaborating to change the world through technology. Put your talent to work with us – change the world, love your job!

We have exciting full time rotation program opportunities for students interested in Finance & Operations roles.

About the ACCESS Rotation Program

In this program, you'll be immersed in meaningful assignments from the start- because nothing beats real-world experience. As a participant in ACCESS you'll rotate through three diverse and challenging positions in finance, accounting and/or operations during a 3 year period. Each one year assignment will give you experience in areas such as financial planning, cost accounting, capacity planning, supply chain management and more. Once your rotations are complete, you will be placed in a rewarding position that plays to your strengths.

You will have the choice between being a specialist or a generalist. The specialist track offers the chance to build depth in your area of interest (finance, accounting or operations), while the generalist track offers the opportunity to explore all three functional areas. You will also receive personal coaching and mentoring along the way from a team of industry-leading professionals to help guide you through this program.

U.S. assignments are typically based in Dallas, Texas with rotation assignments available in other US based locations.
